

## ABOUT US

Based in Perth, Western Australia Westside Drilling has a wide range of drilling experience in the team however specialize in remote RC exploration and RC grade control.

Our Senior Management team has over 50 years exploration drilling experience together with our highly trained drilling crew; we are able to provide quality, reliable, cost effective, management of your exploration program. We believe in building long-term relationships with our clients that benefit the client, the company, shareholders and the community.

Our fleet is fully maintained by qualified mechanic's and drill fitters with many years of experience on all different equipment that are continuously improving, servicing and maintaining Westside's fleet.

## MISSION

Build successful teams that provide exceptional customer service and deliver outstanding drilling solutions in the safest and most efficient method.

## VALUES

**Safety** - Every day, every job begins and ends with safety. Safety is a non-negotiable, it is the way we work. We look after ourselves, our people and those around us. We go beyond just compliance in our safety standards.

### INTEGRITY

What we say is what we do. Our people are always open and honest. We strive for excellence in everything we do. We take responsibility and pride in our work.

### TEAMWORK

Together we deliver results. Our business is about our people and the way we work together. We work as a team to deliver value to our clients and the wider community. We celebrate our successes.

### INNOVATION

We look for the best solutions. We continuously strive to make a positive difference. We have a 'can do' attitude. We always learn and improve.

### SAFETY

Westside Drilling's operations and activities are conducted in accordance with all legislative Occupational Safety and Health requirements. Through a cooperatively developed Safety Management Strategy, Westside Drilling is continuing to nurture a positive safety culture throughout our operations.

### TRAINING

Our ongoing efforts are to involve all members of our Exploration Drilling Crews in the Nationally Recognised Training program Certificate II, III & IV in Mineral Exploration - Drilling.
